All owner surrenders are scheduled by appointment only and available space. We do not euthanize any of our shelter dogs to make space for new dogs needing to be surrendered. Because of this, the majority of the time we will not be able to assist you immediately. Please keep this in mind when choosing to attempt to surrender a dog to us. We ask that you also keep in mind that each day SCAC is doing their best to help both pets and people in our community and we appreciate your patience and understanding.
